## Text Banking Setup Guide

### Text Banking Overview

Text Banking allows customers to send one of various text commands to Traders and Farmers' SMS short code (typically a 5-digit number, representing an "SMS address") and receive a text message response.

### Activation

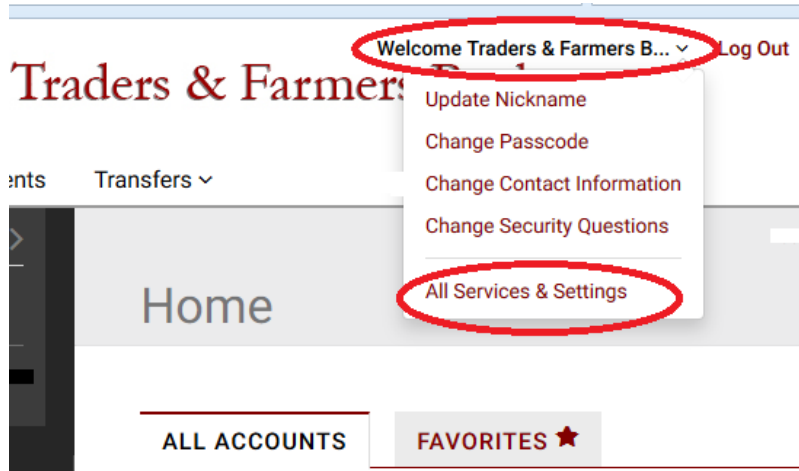

Successful Text Banking enrollment sends a text message to the device. Responding to the text using the Activation code provided on the Mobile Banking Center enrollment page activates Text Banking on the device.

### Follow the prompts

### Available Text Banking Commands

#### Text Banking Commands

Function	Command	Description
<b>Balance</b>	B or BAL	Summary of balances for all accounts.
<b>History</b>	H or HIST	Summary of recent transactions for account.
<b>Command</b>	C or CMD	List of available Text Banking commands.
<b>Help</b>	HE or HELP	Help content for Text Banking.
<b>Login</b>	L or LOGIN	Receive a URL for the Mobile Browser website. *
<b>Recover</b>	R or RECOVER	Receive a URL and new activation code for the Mobile Browser website. *
<b>Stop</b>	S or STOP	De-activate Text Banking and Alerts.

\* The LOGIN and RECOVER commands are only for customers who use the mBanking mobile web browser and want to recover the URL address and/or their Access ID. This can become necessary when the cookies and/or cache are accidentally cleared from the mobile browser. **Customer must have already activated their mobile web browser.**

### Text Banking Shortcuts

Shortcuts help the user access specific account balances or transactions quickly by providing both the command and account number at the same time.

Command	Description
<b>B # or BAL #</b>	Receive the balance of a specific account using the account number assigned by Text Banking. An example shortcut command is <b>B 2</b> or <b>BAL 2</b> .
<b>H # or HIST #</b>	Receive the transaction history of a specific account using the account number assigned by Text Banking. An example shortcut command is <b>H 1</b> or <b>HIST 1</b> .

Text Banking is certified on the following US mobile phone carriers, among others.

- AT&T®
- Sprint®
- T Mobile®
- Verizon® (Alltel®)
- U.S. Cellular®
- Virgin Mobile<sup>SM</sup>

### Supported Devices

To use text banking, customers must have a text message-capable phone. Almost all modern cell phones are capable. While sometimes not required, we encourage customers to have a text message plan with their wireless carrier, to minimize text message charges.
